93% of high school graduates fail the college entrance math test.  
71% of high school students cannot write an "A" level paragraph.  
50% of adults read at 8<sup>th</sup> grade level and have limited vocabulary.

These deficits appear in high school but the problem began long before the student ever entered middle school. There are five key skills that must be mastered before the brain begins its teen expansions. This lecture gives you a step-by-step program for 1<sup>st</sup>-6<sup>th</sup> grade that prepares your young student for academic and career success. We will discuss the latest brain-based **research** on learning, retaining, and mastering the key requirements of:

Reading Comprehension  
Verbal Vocabulary  
Math Fluidity  
Essay Writing  
Critical Thinking
